The screenshot shows a web browser window with several tabs open. The active tab displays a UI component consisting of a blue header bar with three items: 'P1_00', 'P2_00', and 'P3_00'. Below this is a section titled 'Midterm -- Hsingtai Chung, 123456789' containing an image of two colorful chairs and a caption 'High-Back Bench \$9.99'. A red box highlights this entire section. To the right, the browser's developer tools are open, specifically the 'Elements' and 'Styles' panes. The 'Styles' pane shows the CSS for the highlighted element, which includes a style for the 'show-midterm-answer' class. This class has a width of 100%, height of 92vh, and a background-color of #rgba(152, 230, 230, 0.5). The 'element.style' section also lists other styles like 'border-radius: 10px; border: 1px solid black;' and 'background-color: #fff;'. The bottom of the browser window shows the taskbar with various application icons.

6ba451e max920612 Thu Nov 28 19:09:15 2024 +0800 W12-P1: Show annser of p1_00, p2_00, p3_00 in

W12-P2: Embed p1_xx, p2_xx, p3_xx content into index.html, and make it to work correctly

=> select p3_xx nav link, navbar-fixed will be displayed

=> select p1_xx nav link, navbar-fixed will be removed

The screenshot shows a web page with a fixed navigation bar at the top. The navigation bar contains the text "Midterm 許書維 213410300" on the left and three links "P1_00", "P2_00", and "P3_00" on the right. The "P1_00" link is highlighted with a red box. Below the navigation bar is a grid of eight cards, each containing a small image and some text. The cards are arranged in two rows of four. The first card is labeled "7-First Card" and the second "8-Second Card". The third card is "9-Third Card" and the fourth "1-Fourth Card". The fifth card is "2-Fifth Card" and the sixth "3-Sixth Card". The seventh card is "4-Seventh Card" and the eighth card is "5-Eighth Card". Each card has a "Sign In" button at the bottom. On the far right of the screen, the DevTools panel is open, showing the DOM structure and CSS styles for the page.

=> select p2_xx nav link, navbar-fixed will be displayed

The screenshot shows the same web page as the previous one, but the navigation bar is now displayed (not fixed). The "P2_00" link is highlighted with a red box. The rest of the page content, including the grid of cards and the DevTools panel, remains the same as in the previous screenshot.
